Registration of increase of authorized capital stock by a "non-Philippine national" corporation

Legaspi Village, Makati City

ATTENTION: Atty. Joseph Jason M. Natividad

Sir:

This refers to your 04 October 2010 letter requesting opinion.

You stated that:

"The company is not engaged in a nationalized or partly nationalized undertaking. It is currently doing business as an international freight forwarder which can be undertaken by a 100% foreign owned corporation. It was also the decision of the stockholders and the Board of Directors of the company that it will not avail of the incentives under the Foreign Investments Act (Republic Act No. 7042).

During our initial query from the Company Registration and Monitoring Department of the SEC, we were informed that SEC Form F-101 will have to be filed by the company to the SEC. When we sought clarification on the legal basis of said requirement, they cited the Foreign Investments Act particularly Section 5 thereof.xxx

Given the foregoing, we would like to formally request for an opinion on which cases of increase in the percentage of foreign equity in existing corporations would require prior registration with the SEC, and the legal basis...
for the imposition of such requirement. We would also seek clarification on whether SEC Form F-101 is required to be filed by all existing corporations even if it has no intention of doing business under the Foreign Investment Act.

We opine as follows:

Foreign Investments Act of 1991 (FIA), Section 5 provides:

"SEC. 5. Registration of Investments of Non-Philippine Nationals. - Without need of prior approval, a non-Philippine national, as that term is defined in Section 3 (a), and not otherwise disqualified by law may, upon registration with the Securities and Exchange Commission (SEC), or with the Bureau of Trade Regulation and Consumer Protection (BTRCP) of the Department of Trade and Industry in the case of single proprietorships, do business as defined in Section 3 (d) of this Act or invest in a domestic enterprise up to one hundred percent (100%) of its capital, unless participation of non-Philippine nationals in the enterprise is prohibited or limited to a smaller percentage by existing law and/or under the provisions of this Act. The SEC or BTRCP, as the case may be, shall not impose any limitations on the extent of foreign ownership in an enterprise additional to those provided in this Act: xxx." (Emphasis ours.)

Under FIA, Section 3 (a), a corporation with foreign equity participation of more than 40% is considered as non-Philippine national.  

Consequently, corporations with more than 40% foreign equity participation, whether new or existing, are required to register under the FIA in order to do business in the country as defined under FIA, Section 3(d).

---

2 FIA, Section 3 (a) provides:

'a. The term "Philippine national" shall mean a citizen of the Philippines; of a domestic partnership or association wholly owned by citizens of the Philippines; or a corporation organized under the laws of the Philippines of which at least sixty percent (60%) of the capital stock outstanding and entitled to vote is owned and held by citizens of the Philippines; or a corporation organized abroad and registered as doing business in the Philippines under the Corporation Code of which one hundred percent (100%) of the capital stock outstanding and entitled to vote is owned by Filipinos or a trustee of funds for pension or other employee retirement or separation benefits, where the trust is a Philippine national and at least sixty percent (60%) of the fund will accrue to the benefit of Philippine nationals: Provided, That where a corporation and its non-Filipino stockholders own stocks in a Securities and Exchange Commission (SEC) registered enterprise, at least sixty percent (60%) of the capital stock outstanding and entitled to vote of each of both corporations shall be owned and held by citizens of the Philippines and at least sixty percent (60%) of the members of the Board of Directors of each of both corporations must be citizens of the Philippines, in order that the corporation shall be considered a Philippine national.'

3 FIA, Section 3 (d) provides:
The Commission requires SEC Form F-101 for an existing corporation that increases the foreign equity participation in its outstanding capital stock to more than 40% because: (1) it shall now become a "non-Philippine national," and (2) the fact the corporation is incorporated in the Philippines and registered with the Commission indicates that it intends to do business in the country as defined under the FIA.

This opinion is rendered based solely on the facts and circumstances disclosed and relevant solely to the particular issues raised therein and shall not be used in the nature of a standing rule binding upon the Commission in other cases whether of similar or dissimilar circumstances. If, upon investigation, it will be disclosed that the facts relied upon are different, this opinion shall be rendered null and void.

Please be guided accordingly.
