

# FINANCING LANDSCAPE IN THE PHILIPPINES

## Domestic credit, remittances and FDI swamp public and donor financing

The challenge for the private sector will be to move towards inclusive and sustainable business models...

## Capacity is present...

## But needs to be translated into capability...

CSR is not enough. Business as usual is no longer an option to achieve the SDGs...

In Asia, CSR companies grew at an average of 125% from 2005-2010

In the Philippines, out of more than 700,000 companies, 20,000 have CSR programmes. Out of 20,000 Companies, only 0.59 (100 firms) are considered "inclusive businesses"

Empowered lives.  
Resilient nations.

# OUR CURRENT AND PLANNED ENGAGEMENT AREAS

## Philippines private sector contributions to the SDGs in 2016:

TRANSFORMATIONAL BUSINESS

139  
total initiatives

75  
reporting companies

44%  
CSR

56%  
core business

\$800 MILLION  
in investments

Check out the website:

and share your work!

Transformational Business v2.0 (2018) will input to the **Philippines' Voluntary National Report** at the 2019 High Level Political Forum

**SDGsbiz.ph:** Knowledge sharing, online reporting platform, and guidance document on SDG-related business metrics aligned to Philippine SDG indicators

**Data collaboration:** 2.5 quintillion bytes of data per day can potentially help how we solve social issues: data philanthropy can be the way the private sector can aid development

**Innovation for Social Impact Partnership and YouthCoLab:** Providing support to promising innovative social enterprises to identify and manage impact, scale, and collectively contribute to SDGs

**Business Advisory Council:** SDG strategy, reporting and advisory services for businesses, including recognition and assurance protocols

**SDG Impact Project:** Impact management, intelligence, and facilitation for businesses and investors

**Better Business, Better World: Philippines:** Sizes the prize for the shift to a sustainable economy for the Philippines through quantification of business and job creation opportunities as a result of SDG opportunities

# WHERE WE WANT TO GO

*Empowered lives.  
Resilient nations.*

## Reaching the Last Mile

Companies develop inclusive business models that engage people with less than US\$8 per day in purchasing power as consumers, producers, suppliers and distributors.

## Developing Inclusive Innovations and Solutions

Whether through trade, manufacturing, investment or innovation, companies employ market-based solutions to global challenges and are providing opportunities for millions of people to lift themselves out of poverty while investing in core business operations.

## Helping businesses do well and do good

Businesses through their core operations are aligned with the SDGs and enjoy healthy returns: financially, socially and environmentally.
