Atty. Rosario Carmela B. Gonzalez-Austria
Assistant Director, Corporate Governance Division
Corporate Governance and Finance Department
• Released last November 22, 2016 during the 3rd Annual SEC-PSE Corporate Governance Forum

• The first of a series of CG Codes for different types of Philippine corporations under SEC supervision.

• It is intended to raise the corporate governance standards of Philippine corporations to a level at par with its regional and global counterparts.
• The latest G20/OECD Principles of Corporate Governance and the ASEAN Corporate Governance Scorecard were used as key reference materials in the drafting of this Code.

• A new feature of this Code is the adoption of the “comply or explain” approach.

• The Code does not in any way prescribe a “one size fits all” framework”. The Principle of Proportionality will be considered in the application of its provisions.
The Code is arranged as follows: **Principle, Recommendations** and **Explanations**.

**Principles** - can be considered to be high-level statements of corporate governance good practices, and are applicable to all companies.

**Recommendations** - objective criteria that are intended to identify the specific features of corporate governance good practice that are recommended for companies operating according to the Code. Alternatives to a Recommendation may be justified in particular circumstances if good governance can be achieved by other means.

**Explanations** - strive to provide companies with additional information on the recommended best practice.
Definition of Corporate Governance

**Corporate Governance** – the system of stewardship and control to guide organizations in fulfilling their long-term economic, moral, legal and social obligations towards their stakeholders.

Corporate governance is a system of direction, feedback and control using regulations, performance standards and ethical guidelines to hold the Board and senior management accountable for ensuring ethical behavior – reconciling long-term customer satisfaction with shareholder value – to the benefit of all stakeholders and society.

Its purpose is to maximize the organization’s long-term success, creating sustainable value for its shareholders, stakeholders and the nation.
There are sixteen (16) principles that are distributed among five (5) main sections, namely:

- Board’s Governance Responsibilities – Principles 1 – 7
- Disclosure and Transparency – Principles 8 – 11
- Internal Control and Risk Management Framework – Principle 12
- Cultivating a Synergic Relationship with Shareholders – Principle 13
- Duties of Stakeholders – Principles 14 -16
