

Bids and Awards Committee

REQUEST FOR QUOTATION (RFQ) No. 2017- 010

The Securities and Exchange Commission (SEC), through its Bids and Awards Committee (BAC), will undertake an **Alternative Method of Procurement through Negotiated Procurement** for the items stated below, in accordance with **Section 53.9 Small Value Procurement** of the Revised Implementing Rules and Regulations of Republic Act. No. 9184.

The SEC hereinafter referred to as “the Purchaser”, now requests submission of a price quotation for the subject below:

APP Ref.	PR No.	Description	Approved Budget for the Contract (ABC) inclusive of VAT
APP Item II b-12	201703027	Maintenance Support for Network Support & User Monitoring Activity (D.12)	Php 600,000.00

Interested suppliers are required to submit the following Eligibility documents:

1. *Valid Mayor's Permit*
2. *Proof of PhilGEPS Registration*
3. *Latest Income/Business Tax Return (for ABC above Php 500,000.00 only)*
4. *Omnibus Sworn Statement (attachment 1)*

SEC Condition of Sale:

1. *Delivery Schedule: Fifteen (15) calendar days from receipt of approved PO/NTP*
2. *Bid Validity: Sixty (60) calendar days from submission of bids*
3. *Delivery Site: Information and Communications Technology Department (ICTD), G/F Secretariat Bldg, PICC*

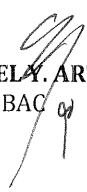

Award of contract shall be made to the lowest quotation for the subject goods which comply with the minimum technical specifications and other terms and conditions stated herein.

Any alterations, erasures, or overwriting shall be valid only if they are signed or initialed by the bidder or his/her duly authorized representative.

Submission of duly signed Price Quotation Form (Attachment 1) and eligibility documents is not later than **10:00 A.M. of April 3, 2017** at the Procurement Division, 3rd Floor, Secretariat Building, PICC Complex, Pasay City. Open submission may be done, manually or through Facsimile No. 818-5330. **Use of forms other than the attached SEC prescribed PQF is not acceptable.**

The penalty for late deliveries is one tenth (1/10) of one (1) percent of the cost of the unperformed portion for every day of delay. The maximum deduction shall be ten percent (10%) of the contract price. Once the cumulative amount of liquidated damage reaches ten percent (10%) of the contract price, the procuring entity shall rescind the contract without prejudice to other courses of action and remedies open to it.

The SEC reserves the right to reject any and all bids, declare a failure of bidding, or not award the contract in accordance with Section 41 of RA 9184 and its IRR, without thereby incurring any liability to the affected bidder or bidders.

EMMANUELA A. ARTIZA
Chairman, BAC

Omnibus Sworn Statement

REPUBLIC OF THE PHILIPPINES)
 CITY/MUNICIPALITY OF _____) S.S.

I, *[Name of Affiant]*, of legal age, *[Civil Status]*, *[Nationality]*, and residing at *[Address of Affiant]*, after having been duly sworn in accordance with law, do hereby depose and state that:

Maintenance support for Network and User Activity monitoring system for 500 user licenses

TECHNICAL SPECIFICATIONS	Statement of Compliance
<p>NETWORK AND USER MONITORING SOLUTION (FOR 500 STAND ALONE LICENSES)</p> <p>PART A. TECHNICAL SPECIFICATION</p> <p>A.1 User Activity Management</p> <ul style="list-style-type: none"> 1.1 Must be able to monitor application usage of active/inactive time, web surfing, gaming or chat. 1.2 Must be able to monitor user's number of visits to Web sites with headers and visit duration. 1.3 Must be able to monitor user's e-mail sender, addressee, subject, size. 1.4 Must be able to block websites 1.5 Must be able to provide information on generated network traffic. 1.6 Must be able to provide information on users running prohibited applications such as chat, P2P, P2Mail and give alarms when such an application is used. 1.7 Must be able to provide screenshots for user work history. 1.8 Must be able to provide printing monitoring capabilities that can do auditing of both employees and printers. 1.9 Must be able to provide information on edited documents. 1.10 Must be able to provide actual activity (work) duration, log in and log out with time stamp. 1.11 Must be able to show user-specific network transfer report. 1.12 Must have user's view in the main window that displays the most important user data (an equivalent of Device List), including machine name the user name is currently working on.), 1.13 Must be able to generate reports for MS Active Directory user's, regardless of the machines they were working on at given time 1.14 Must have application launch blocking feature 1.15 Must be able to support for SSL encryption in e-mail notifications 1.16 Must be able to display the status and details of workstations CPU and memory usage. 	

1.17 Must have e-mail header monitoring: from, to, subject, size in KB

A.2 Data Security

- 2.1 Must be able to manage portable disk access rights.
- 2.2 Must be able to grant appropriate rights related to the use of media and right to audit, read, write and execute files to a specific user.
- 2.3 Must be able to block port and media such as Bluetooth, flash drives, portable disk drives, portable MP3 players and SD slots.
- 2.4 Must be able to list all operations involving file to Portable devices and vice versa.
- 2.5 Must have central configuration by means of rule sets For an entire network or selected groups of machines.
- 2.6 Must be able to integrate with MS Active Directory to Manage access rights to assign users.
- 2.7 Must be able to record information on all operations performed on selected media
- 2.8 Must be able to identify portable devices with serial numbers

A.3 Hardware and Software Inventory/Audits

- 3.1 Must be able to automatically collect data about the networked hardware and software.
- 3.2 Must provide information about hardware model, CPU, memory, motherboard, disk drives, and adapters.
- 3.3 Must be able to provide statement of all hardware configurations owned, free disk space, average memory usage.
- 3.4 Must provide information enabling to detect systems requiring an upgrade.
- 3.5 Must be able to provide installed applications and Windows updates (auditing and verification of license usage).
- 3.6 Must have automatic detection of installed applications on the basis of fingerprint database (application fingerprint database updated via the Internet)
- 3.7 Must be able to Audit windows include that allows to filter elements per branch

- 3.8 Must have automatic and permanent change reporting by means of agents. (immediately after the change occurs)
- 3.9 Must be capable of managing licenses owned (license types) and provide license compliance reports.
- 3.10 Must have software legality audit, notifying only when the number of licenses owned is exceeded.
- 3.11 Must be able to display Fixed Assets view in the main window
- 3.12 Must have administrative and billing feature that shows IT assets register database, integrated with information on software and hardware from the Agents.
- 3.13 Must be able to store all gathered information on IT infrastructure in one place with flexible expanding and updating of the collected information.
- 3.14 Must have an option to define own types (equipment components), their attributes (fields) and values.
- 3.15 Must have an option to assign assets to departments or computers.
- 3.16 Must provide auditing view presenting all fixed assets, including devices and software installed.
- 3.17 Must be able to custom appendices: invoice scans, license sticker photos, and PDF documents

A.4 Network Monitoring

- 4.1 Capable of discovering all IP based network devices automatically and manually
- 4.2 Must have automatic and permanent detection of computers within the entire network with advanced network scanner and present machines on interactive maps displaying all critical information.
- 4.3 Must be able to monitor Windows event log and system services
- 4.4 Must be able to monitor the availability and contents of websites.
- 4.5 Must be able to monitor Windows system and application parameters (MS Exchange, MS SQL and other)
- 4.6 Must be able to monitor the following services:
 - Windows and Linux systems
 - SNMP v. 1/2/3 equipment
 - TCP/IP services with the option to create your own services.
 - Managed switches: information on devices connected to each port, port status and traffic
 - Routers and switches (MRTG), performance of

SNMP equipment (network capacity, etc.)

- Mail servers (POP3 and SMTP services)
- Web servers and URLs (loading time and page content)
- Windows services and performance (automatic restarting of inactive or inefficient services)
- Application performance and status, like for MS SQL, Exchange, IIS, Oracle and others.

A.5 Help Desk Capabilities

5.1 Must be able to provide remote control functionalities to end user on the terminal server

5.2 Must be able to define if a user must consent to a console takeover.

5.3 Must be able to distribute and launched files.

5.4 Must be able to Support for attachments in the Helpdesk

5.5 Must allow user to see the administrator's actions (identical display) or can be locked out for the duration of administrative operations.

5.6 Must be able to Support screenshots in the Helpdesk

5.7 Must be able to provide view of user's display without doing a remote control.

5.8 Must have the option to log in as any user without having to log out the current user.

5.9 Must have trouble ticket database and chat.

5.10 Must be able to allow the users to report technical problems by means of trouble ticket creation mechanism.

5.11 Must be able to process and assign incoming trouble tickets to appropriate people or groups according to problem category.

5.12 Must be able to monitor the solution process for the reported problem and its current status.

5.13 Must be able to send messages from the Administrator to the users with message read notification request.

5.14 Must be Web base interface on Trouble ticket mechanism

5.15 Must have chat feature for administrator-user

communication.

- 5.16 Must have distribution queue mechanism, installation process may wait until the machine is turned on

A.6 Supported Operating System

- 6.1 Capable of monitoring performance on different Operating Systems
 - 6.1.1 Windows (all with WMI/SNMP capability).
 - 6.1.2 Unix
 - 6.1.3 Linux
 - 6.1.4 Mac OS

B. TECHNICAL/ESCALATION SUPPORT SERVICES (FOR A PERIOD OF ONE YEAR)

- 1.1 The bidder shall provide 8 x 5 email and phone support
- 1.2 The bidder shall provide software patches ~~if~~ necessary and ensure that no issue on compatibility shall prevail.
- 1.3 The bidder shall provide once a month visit on-site for system health check.
- 1.4 The Bidder must have check the health, performance, availability and effectiveness of the proposed solution to ensure that the system is running in good operating conditions.
- 1.5 The Bidder shall submit, on a monthly basis, the following Report Requirements
 - 1.5.1 Systems report consolidation and analysis
 - 1.5.2 Consolidation and inventory of rules and Policies deployed.
- 1.6 The bidder shall provide detailed escalation procedure specially designed for SEC for proper isolation of issues encountered during the One (1) year maintenance period.
 - 1.6.1 Monitoring Rules and Policy Hardening
 - 1.6.2 Provide evaluation reports and recommendations to continuously ensure reliable and secured management of the entire network.

C. OTHER VENDOR REQUIREMENTS

- 1 Supplier must be operating in the Philippines for the past five (5) years.
- 2 Supplier's Certifications Required
 - 2.1 Certification issued by the Original Software
 - 2.2 Manufacturer (OSM) of the existing management software that the bidder is an exclusive distributor in the Philippines.
 - 2.3 Certification issued by the Original Software Manufacturer (OSM) of the management software that the bidder is authorized to supply, install, maintain and provide full product training of the software.
 - 2.4 Certificate from the Bidder that the Key Personnel herein required in Item D shall be made available to SEC once project is awarded.

D. KEY PERSONNEL QUALIFICATIONS FOR THE IMPLEMENTATION OF THE PROJECT AS PART OF SUPPLIER'S COMPETENCY REQUIREMENT.

Minimum required experience of key personnel under regular employ of the Bidder. (Submit copy of curriculum vitae, company ID and training certificates).

- 1 One (1) Project Manager or equivalent: (Must be a regular employee for at least 5 years)
 - Trained in Security Information Management Software Administration and Management or equivalent.
 - Trained and Certified in Network, Security and Recovery Management by the OSM of the software solution to be bid, to provide installation, support, maintenance services and conduct end user training.
- 2 One (1) Certified Administrator or equivalent (Must be a regular employee for at least 5 years)
 - Trained and Certified in Network, Security and Recovery Management by the OSM of the software solution to be bid, to provide installation, support, maintenance services and conduct end user training.
 - Formal training in Linux Systems Administration
- 3 One (1) Systems Engineer or equivalent

<ul style="list-style-type: none">• Certified in Implementing MS Windows 2000 Professional and Server.• Trained and certified in Back-up Management Software• Certified in Security Information Management Software Administration and Management or its equivalent. <p>4 Two (2) Technical Engineer or equivalent</p> <ul style="list-style-type: none">• Trained and Certified in Network, Security and Recovery Management by the OSM of the software solution to be bid, to provide installation, support, maintenance services and conduct end user training.
